INNOVATION ENGRAINED

Luxury Vinyl Flooring that resists everything...but love!

100% Waterproof • Eco-Friendly • Hypoallergenic

Feel Good Flooring **REALFEEL™**

Brandywine Valley Collection: Covered Bridge

What is REALFEEL™ Technology?

Stone Barn® Floors are designed and engineered to capture the timeless look of wood planks and natural stone, while providing a resilient and comfortable surface for everyday living at a fraction of the cost. Stone Barn® Floors are better for the environment, easier to maintain, 100% waterproof, pet-proof, and warranted for wear.

With cutting-edge REALFEEL™ EIR (Embossed-in-Register) technology, our Luxury Vinyl Flooring doesn't just simulate the texture of hardwood, it precisely matches the physical grain of the embossed wear layer to the appearance of the image film, providing unparalleled realism and natural beauty that makes your flooring stand out. Every plank's unique, three-dimensional wood grain surface makes Stone Barn® Floors the best choice for your home or business.

You've got to feel it to believe it.

Pet-Friendly Flooring

Perfect for Pets and Owners

In the U.S., over 65% of households have a pet and we spend more than \$60 billion on them each year.* As a homeowner, you know how hard it is to keep your floors in pristine condition with a pet in the house. How do you choose between your furry friend and floors free from stains and scratches? Now you don't have to.

Stone Barn® Floors are expertly engineered to resist stains and scratches caused by your dog or cat, with industry-leading warranties to back it up. With proper care and prevention, stain resistance allows your surface to remain free from permanent stains for as long as you own the floor.

Stop worrying about accidents, spills and scratches. Your home deserves a furry friend and great flooring. Stone Barn® Floors makes that possible.

FORMALDEHYDE FREE

All Stone Barn® Luxury Vinyl Flooring is non-toxic and formaldehyde free. Formaldehyde is used as an adhesive in a wide range of other wood flooring products and can cause adverse health effects including eye, nose and throat irritation, other respiratory symptoms, and even cancer.

HYPOALLERGENIC

All Stone Barn® Luxury Vinyl Flooring products are hypoallergenic. Since they are made from inert materials and routine cleaning is performed with water and mild detergents, our luxury vinyl has a decreased tendency to provoke allergic reactions.

100% WATERPROOF

Our waterproof warranty promises that the structural integrity of our Luxury Vinyl Planks and Tiles will not be significantly diminished by exposure to water for the life of the product.

BUILT-IN SAFETY FEATURES

Our flooring includes iXPE Foam (antimicrobial, closed cell), a premium wear layer, superior sound proofing, excellent slip resistance, and industry leading warranties.

ISO CERTIFIED

All of our Luxury Vinyl Flooring products are certified to ISO 14001 and 9001 standards. These standards reduce waste and costs without compromising on performance or service. These certifications demonstrate our commitment to managing our environmental impact and providing the highest quality flooring products to our customers and resellers.

FLOORSCORE® CERTIFIED

All of our Luxury Vinyl Flooring products are FloorScore® Certified for Indoor Air Quality. FloorScore® is the most recognized and highly respected indoor air quality (IAQ) certification standard for hard surface flooring materials, adhesives, and underlayments. Installing FloorScore® Certified Stone Barn® flooring qualifies you for many green building schemes including LEED v4, BREEAM, and CHPS. FloorScore® was developed by the Resilient Floor Covering Institute (RFCI) with SCS, and SCS is the exclusive certification body for the FloorScore® program.

PET-FRIENDLY

When it comes to your home, Stone Barn® Luxury Vinyl Flooring has the solution to help you protect and preserve your asset. If you are a cat or dog owner, Stone Barn® Floors will make your life easier. Our vinyl flooring is engineered and warranted to resist staining caused by accidents and normal exposure to pets.
